
Job Description

Enviro Balance Inc. is looking for an experienced HVAC Testing and Balancing Technician to join our company.

This position is well suited for a self-driven person looking for long term employment in a dynamic company.

Benefits:

- Support towards obtaining certification as a NEBB TAB Technician.
- A full-time position with minimum 36 hours a week.
- Provide all safety gear, hand tools and instruments to use on site.
- Wage: \$ 32.00/hour

Your Qualifications Must Include:

- Minimum 1 year experience in air and water balancing.
- Post-secondary diploma in HVAC systems or equivalent work experience.
- Clean background check as most facilities require a police clearance letter.
- Excellent written English and communication skills.
- Valid Working at Heights and WHMIS safety completed in class.

List of Job Duties

- Independently complete the air and water balancing work end to end: to include site work and report.
- Strong knowledge hydronic and ventilation systems, be ready to pass the NEBB Certified Technician test. A written test will be administered at the time of the interview.
- Experience to read and interpret mechanical specifications and drawings.
- Comfortable to use advanced Excel, cloud file sharing applications, algebra and use of XY graphs to plot operating points for pump and fan curves.
- Very good mechanical aptitude in using hand tools: complete pulley replacement.
- Physical demands: climb ladders, access building roofs, open ceiling tiles, use aerial platforms or scissor lifts to access ventilation equipment.
- Experienced using specialized instruments VENTILATION: Evergreen, Alnor, Shortridge, or HYDRONIC: Alnor & T&A, ULTRASONIC: Fuji and Yoke.
- Able to travel to northern Ontario or elsewhere in the province and work independently for extended periods of time.
- Able to work evenings and weekends – based on project specific requirements.

Before You Start in Your Position You Must Have:

- Applicants must possess a G-full valid driver license and have access to a reliable vehicle as project locations vary throughout or outside GTA
- Own steel toe boots are a requirement

Employment is subject to three months probationary period.

Applicants are encouraged to apply in writing at 159 Varsity Road, York, Ontario M6S 4P5. Only applications received over mail will be considered.
